

RELEASE NOTES

FORT CLI V2 1.1.27 Release Notes

FORT CLI V2 1.1.27 is a hotfix that restores EPC discovery. Install it if you use FORT CLI V2 to find or connect to EPCs.

RELEASE	RELEASE DATE	APPLIES TO	DOCUMENT ID
1.1.27	October 14, 2026	FORT CLI V2	RN-26.3.1-CLI

01

Summary

FORT CLI V2 1.1.27 fixes a problem that stopped `fortcli` from recognizing EPCs on the network. Before this fix, `fortcli` could report `No devices found.` even with an EPC connected, and commands that refer to an EPC by serial number returned `device not found.` This fix is the only change in the release. We recommend it for everyone who uses FORT CLI V2.

WHAT'S NEW

- ✓ `fortcli` finds EPCs again, including by serial number.

BEFORE YOU UPGRADE

- ◆ This release changes FORT CLI V2 only. Device firmware and FORT Manager are unchanged.
- ◆ To update device firmware, see “Updating Firmware on Your Devices” in the FORT Pro Series User Guide.

02

Highlights and Safety Updates

EPC discovery restored

To find EPCs, `fortcli` reads the list of nearby network devices that your computer keeps and checks the start of each device's MAC address to confirm that FORT made it. An issue affecting this check caused it to fail, so `fortcli` did not recognize FORT EPC devices. 1.1.27 resolves the issue, and `fortcli` recognizes FORT devices again.

FORT devices only

`fortcli` communicates only with the devices it identifies as FORT devices and skips everything else on the network.

Scope of the change

The fix changes only how `fortcli` finds EPCs over the network. Once a device is found, every command works as it did before.

03

Bug Fixes

FORT CLI V2

- Fixed fortcli reporting No devices found. while an EPC was connected.

04

Compatibility

- FORT CLI V2: 1.1.27
- EPC firmware: no update required for this release

05

Known Issues and Limitations

Although we aspire for every release to be perfect, no software is free of issues. At the time of publication, FORT Robotics has no known issues or limitations to report for this release. If you encounter unexpected behavior, contact us using the information below.

06

Thank You

Thank you for choosing FORT Robotics. We build every release to make your robots safer, more secure, and more productive.
